

Shower enclosure KW-3-c-120 biewP

BATHTUB SCREEN

Product number: 600-013-2110-01-520

Kw-3-c bath screen is a three-elements folding proposal to combine the bathing and showering function. Each of the three elements can be folded evenly with the short side of the bathtub. Made of polystyrene gives lightness to the structure, and the frame structure of the walls ensures the stability of the product. 2in1 - a bathtub with an additional shower function is a perfect proposition for fans of relaxing in the bathtub and quick showers in the shower enclosure.
