

Shower enclosure DTr-c-W-120 biewP

RECESS BATHTUB SCREEN

Product number: 600-013-2411-01-520

Bath screen based on the Classic series proposal of DTR-c-W is a sliding three-elements door dedicated for recess installation on a bathtub. It is made of polystyrene or 3mm safety glass sheet and available in a wide range of sizes, matched to the width of bathtubs offered in our brand. The sliding system is based on sliding rollers and sliders. The elements sliding along the entire length of the door allow entry from both the left and right sides. The special designed profile allows convenient sliding of the door.

Basic dimensions: 1200 mm
