

Shower enclosure KN/TX4b-90-S biewW0

SQUARE CORNER SHOWER ENCLOSURE

Product number: 600-271-0030-01-400

A square shower enclosure is a classic model. This shape fits perfectly to almost any interior. Shower enclosures from the TX4 Series are applicable to all, even the most demanding clients. Corner shower enclosures KN/TX4 with sliding doors are filled with 4mm safety glass sheets. The sliding system is based on single bearing rollers mounted in the glass sheet and detachable lower rollers. The ability to detach the door makes it easier to keep the shower enclosure clean. The tightness is ensured by a magnetic seal. Ergonomic, chrome handles ensure comfortable opening the sliding door. Adjustable wall profiles allow to level the curvature of the wall. 190cm height provides even greater comfort of use.

Shower tray dimensions: 900x900 mm

A Height: 1900 mm

Adjustment range Bmin-max=Cmin-max: 873-890 mm

X Entrance width: 530 mm
